QUICK TIPS

Do you need help locating a product?

Hold the 'Ctrl' and 'F' buttons down, or the 'Command' and 'F' buttons if you are working off a Mac, to prompt the keyword search. If our product list contains the keyword, the keyword will be located and highlighted, to help navigate you through our inventory.

Do you have questions, comments or concerns?

Please contact us at info@seamarketny.com and our S.E.A. Market team will be more than happy to provide you with prices and product availability, even for items that you may not have been able to locate on our product list.

We also have a team of food specialists that are available to provide recommendations on food handling, ingredient incorporation, and recipes upon request.

What happens if an item is on back-order?

Due to market fluctuations, product brand, packaging, and unit size are subject to change.

In the off chance that an item is out of stock, we will try our best to locate and deliver a product of equal or better quality. If we cannot locate a product of equal or better quality, we will contact you as soon as possible.

Upon delivery of the substitute item, we encourage you to inspect the order. If you are not happy with the quality of the substitute item, you are more than welcome to return the item to our S.E.A. Market driver.
